**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

Claims 29-54 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The portion of the specification pointed out to provide support for the new limitation is not adequate for the limitations presently recited in the claims and presently added to the specification.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 29-54 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kaasian in view of Leonard of record for reasons of record.

The Kaasian patent further discloses the use of different sources of mananomanganic oxide, including sintered manganese ore or natural manganese ore (col. 2, lines 44-46).

Consequently, while the preferred embodiment uses a sintered ore, the patent teaches the use of natural manganese ore as an equivalent to the sintered ore. Accordingly, even if the added limitations are considered, the Kaasian patent teaches the use of un-sintered or natural ore.

### ***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
